

# NSV BtB NSCV BtB

## Protected and secure operator station

The BtB model provides for the coupling of a R and L checkout counter, with motorized belt and scanner hole (NSV) and/or drawer (NSCV) predisposition. Double rounded bagging area. The central work area allows operators to perform their tasks safely according to ergonomic criteria.

NSV BtB CERTIFICATION NO. 636  
NSCV BtB CERTIFICATION NO. 637
